Front-End :- HTML | CSS | JavaScript | ReactJs | Tailwind CSS | Framer Motion | GsapScrollTrigger

Back-End :- NodeJs | ExpressJs | Bootstrap | MongoDB | PassportJs | Google Auth. | Razor Pay

Language :- JavaScript

EDUCATION

Bachelor of Technology
C I S T-Bhopal(M.P.)

2020-2024

Senior Secondary Education

GOVT. Martand Hr. Sec. School no-02 Rewa 2019-2020

Secondary Education

GOVT. Martand Hr. Sec. School no-0 2 Rewa 2017-2018

CERTIFICATE

- Front End Development Certificate, Sheryians Coding School
- Backend Development Certificate, Sheryians Coding School
- React Js Certificate, Sheryians Coding School

PROFILE

As a Full Stack Developer with proficiency in MongoDB, Express, React.js, and Node.js, I specialize in developing robust and efficient web applications. I have a strong focus on creating seamless user experiences and optimizing performance. My expertise lies in designing and implementing scalable solutions, integrating front-end and back-end technologies, and ensuring smooth and responsive interfaces. I am committed to contributing my skills and knowledge to drive successful project outcomes..

PROJECT

Pinterest Web App

https://github.com/gaurav6232/pintrest-web-app

- Developed a web application using Node.js, Express, MongoDB, Multer.js, and Nodemailer.
- Features include:
- User registration and login functionality
- Ability to upload posts
- View and interact with other users' accounts and posts
- Ensures smooth user experience and efficient data management through seamless integration of technologies.

Music Stream App

https://github.com/gaurav6232/music-web-streaming-clone
- Technology Stack: Node.js, Express, MongoDB, Multer.js, and Nodemailer.
- Register and log in to the application.
- Upload posts seamlessly.
- View and interact with other users' accounts and posts.
- Manage user accounts and uploaded posts.
- Provides a smooth user experience.
- Efficient data management through the seamless integration of technologies.

Live Chatting Web App

https://github.com/gaurav6232/whatssapp-clone
- Technology Stack: Node.js, Express, MongoDB, Multer.js, etc.
- User registration and login capabilities.
- Real-time messaging between users.
- File and image sharing within messages.
- Allows users to connect and interact seamlessly.
- Ensures efficient handling of data and media files.
- Provides a smooth and user-friendly experience.
